

I love to code beautiful things. ❤️

Experience

- I 2017 - IV 2018 **Perfect Dashboard / Front End Developer**
Responsible for the entirety of code & graphic design for front end portions of a robust web application and its homepage. Worked mostly with Vue, Sass, UIKit and Node.
- VII 2014 - IV 2016 **MFITC / Front End Developer**
Participated in several projects, primarily handled front end development for Windows Phone, Android, Xamarin and single page web apps.
- VI 2014 - VII 2014 **Internship under Microsoft's patronage / Software Developer**
Developed front end & back end for a Universal Windows Platform app using the MVVM pattern, .NET, SignalR and basic Microsoft Azure cloud services.
- 2015 **Imagine Cup Poland (Hackathon) / 1st place team**
Assembled and captained the team. Handled Unity engine development in C# and visual design. Selected for National Team.

Education & Scholarships

- 2014 - 2016 **Computer Science / University of Lodz**
Was an active member of Studenckie Centrum Informatyczne UŁ, on behalf of which gave lectures during IT Academic Days conferences in multiple public colleges across Poland.
